### Future-proofed for industry needs

The TOUGHBOOK 55 is ideal for automotive R&D engineers who need a rugged and reliable notebook to deal with challenging conditions, whether testing in remote locations, the heat chamber, or the test track. With telemetry being captured in real-time, the device can easily handle huge data volumes with its superior storage and connectivity capabilities.

For utilities and field service repairs the TOUGHBOOK 55 stands out with its multiple configuration and connectivity options, including to legacy systems and specialist ports. For defence and the emergency services, the TOUGHBOOK 55 offers high levels of data protection as a Microsoft Secured-core PC and mission critical levels of connectivity.

Combined with a lightweight design and an IP53 rating that protects against dust and water splashes, the TOUGHBOOK 55 can stand up to knocks and drops up to 90cm\* and comfortably operate in temperatures ranging from -29°C to +60°C\*.
