

Extends Recording Times and Lowers CostsThe P2 card offers up to 64 GB*1 of storage capacity. A single P2 card can record up to 64 minutes*2 with the DVCPRO HD or AVC-Intra 100 codec or up to 128 minutes*2 with the AVC-Intra 50 codec.*3 This large capacity provides sufficient recording time even for a handheld camera recorder or portable recorder with two card slots. With semiconductor memory capacity increasing yearly, you can expect even larger-capacity P2 cards with even greater economy in the future.*1: Total card capacity includes space for data management, such as system data; therefore, actual usable area is less than the capacity indicated on the card.*2: A 64GB P2 card can record 80 minutes in AVC-Intra 100 1080/23.98p or 160 minutes in AVC-Intra 100 / DVCPRO HD 720/23.98p.*3: See the products listed on pages 11 to 18 for details of AVC-Intra-ready models.
