

**Subject:** New AK-HUC01 4K Upgrade kit for AK-HC3900GSJ Available

**Bulletin Type:**  Product  Marketing  Service

**Bulletin Number:** PV-2021-MB-5004

**Date:** July 1, 2021

**Product:** AK-HUC01 4K Upgrade Kit

Panasonic System Solutions Company of North America (“PSSNA”), Division of Panasonic Corporation of North America is pleased to announce delivery of the **AK-HUC01 4K Upgrade Kit**. The upgrade kit consists of the **4K output board for the AK-HCU250PSJ** and a **4K Optical low pass filter** for the **AK-HC3900GSJ** Camera head.

- The 4K Optical low pass filter is optional to maximize the resolution and sharpness when shooting in 4K, but the existing filter can be left in place to minimize any chance of moiré.
- Panasonic service is recommended for installation of both the 4K output board and the Optical low pass filter.

The AK-HC3900GSJ is designed specifically for studio use and derives its 1080p imaging from a 4K sensor so the future 4K upgrade will be to true 4K. When the **AK-HUC01 kit** is installed the **AK-HC3900GSJ becomes a true 4K studio camera**, with an uncompromised 2000 TVL resolution.
