TOUGHBOOK

TOUGH is
staying strong in
mission-critical
moments

TOUGH is always rising to the challenge

No compromise since 1996

Panasonic TOUGHBOOK doesn't just lead the rugged computing market – we created it.

Since 1996, we've committed ourselves completely to setting the standard for rugged laptops and tablets, refusing to compromise on the quality of our technology.

Because TOUGHBOOK was born rugged from day one, we've raised the bar for efficiency, security and connectivity. Making work smarter, easier and faster across the board, in every industry.

For over 25 years, Panasonic TOUGHBOOK has been redefining technology for the most challenging environments, with a dedicated range of laptops, tablets and handheld devices.

Born rugged

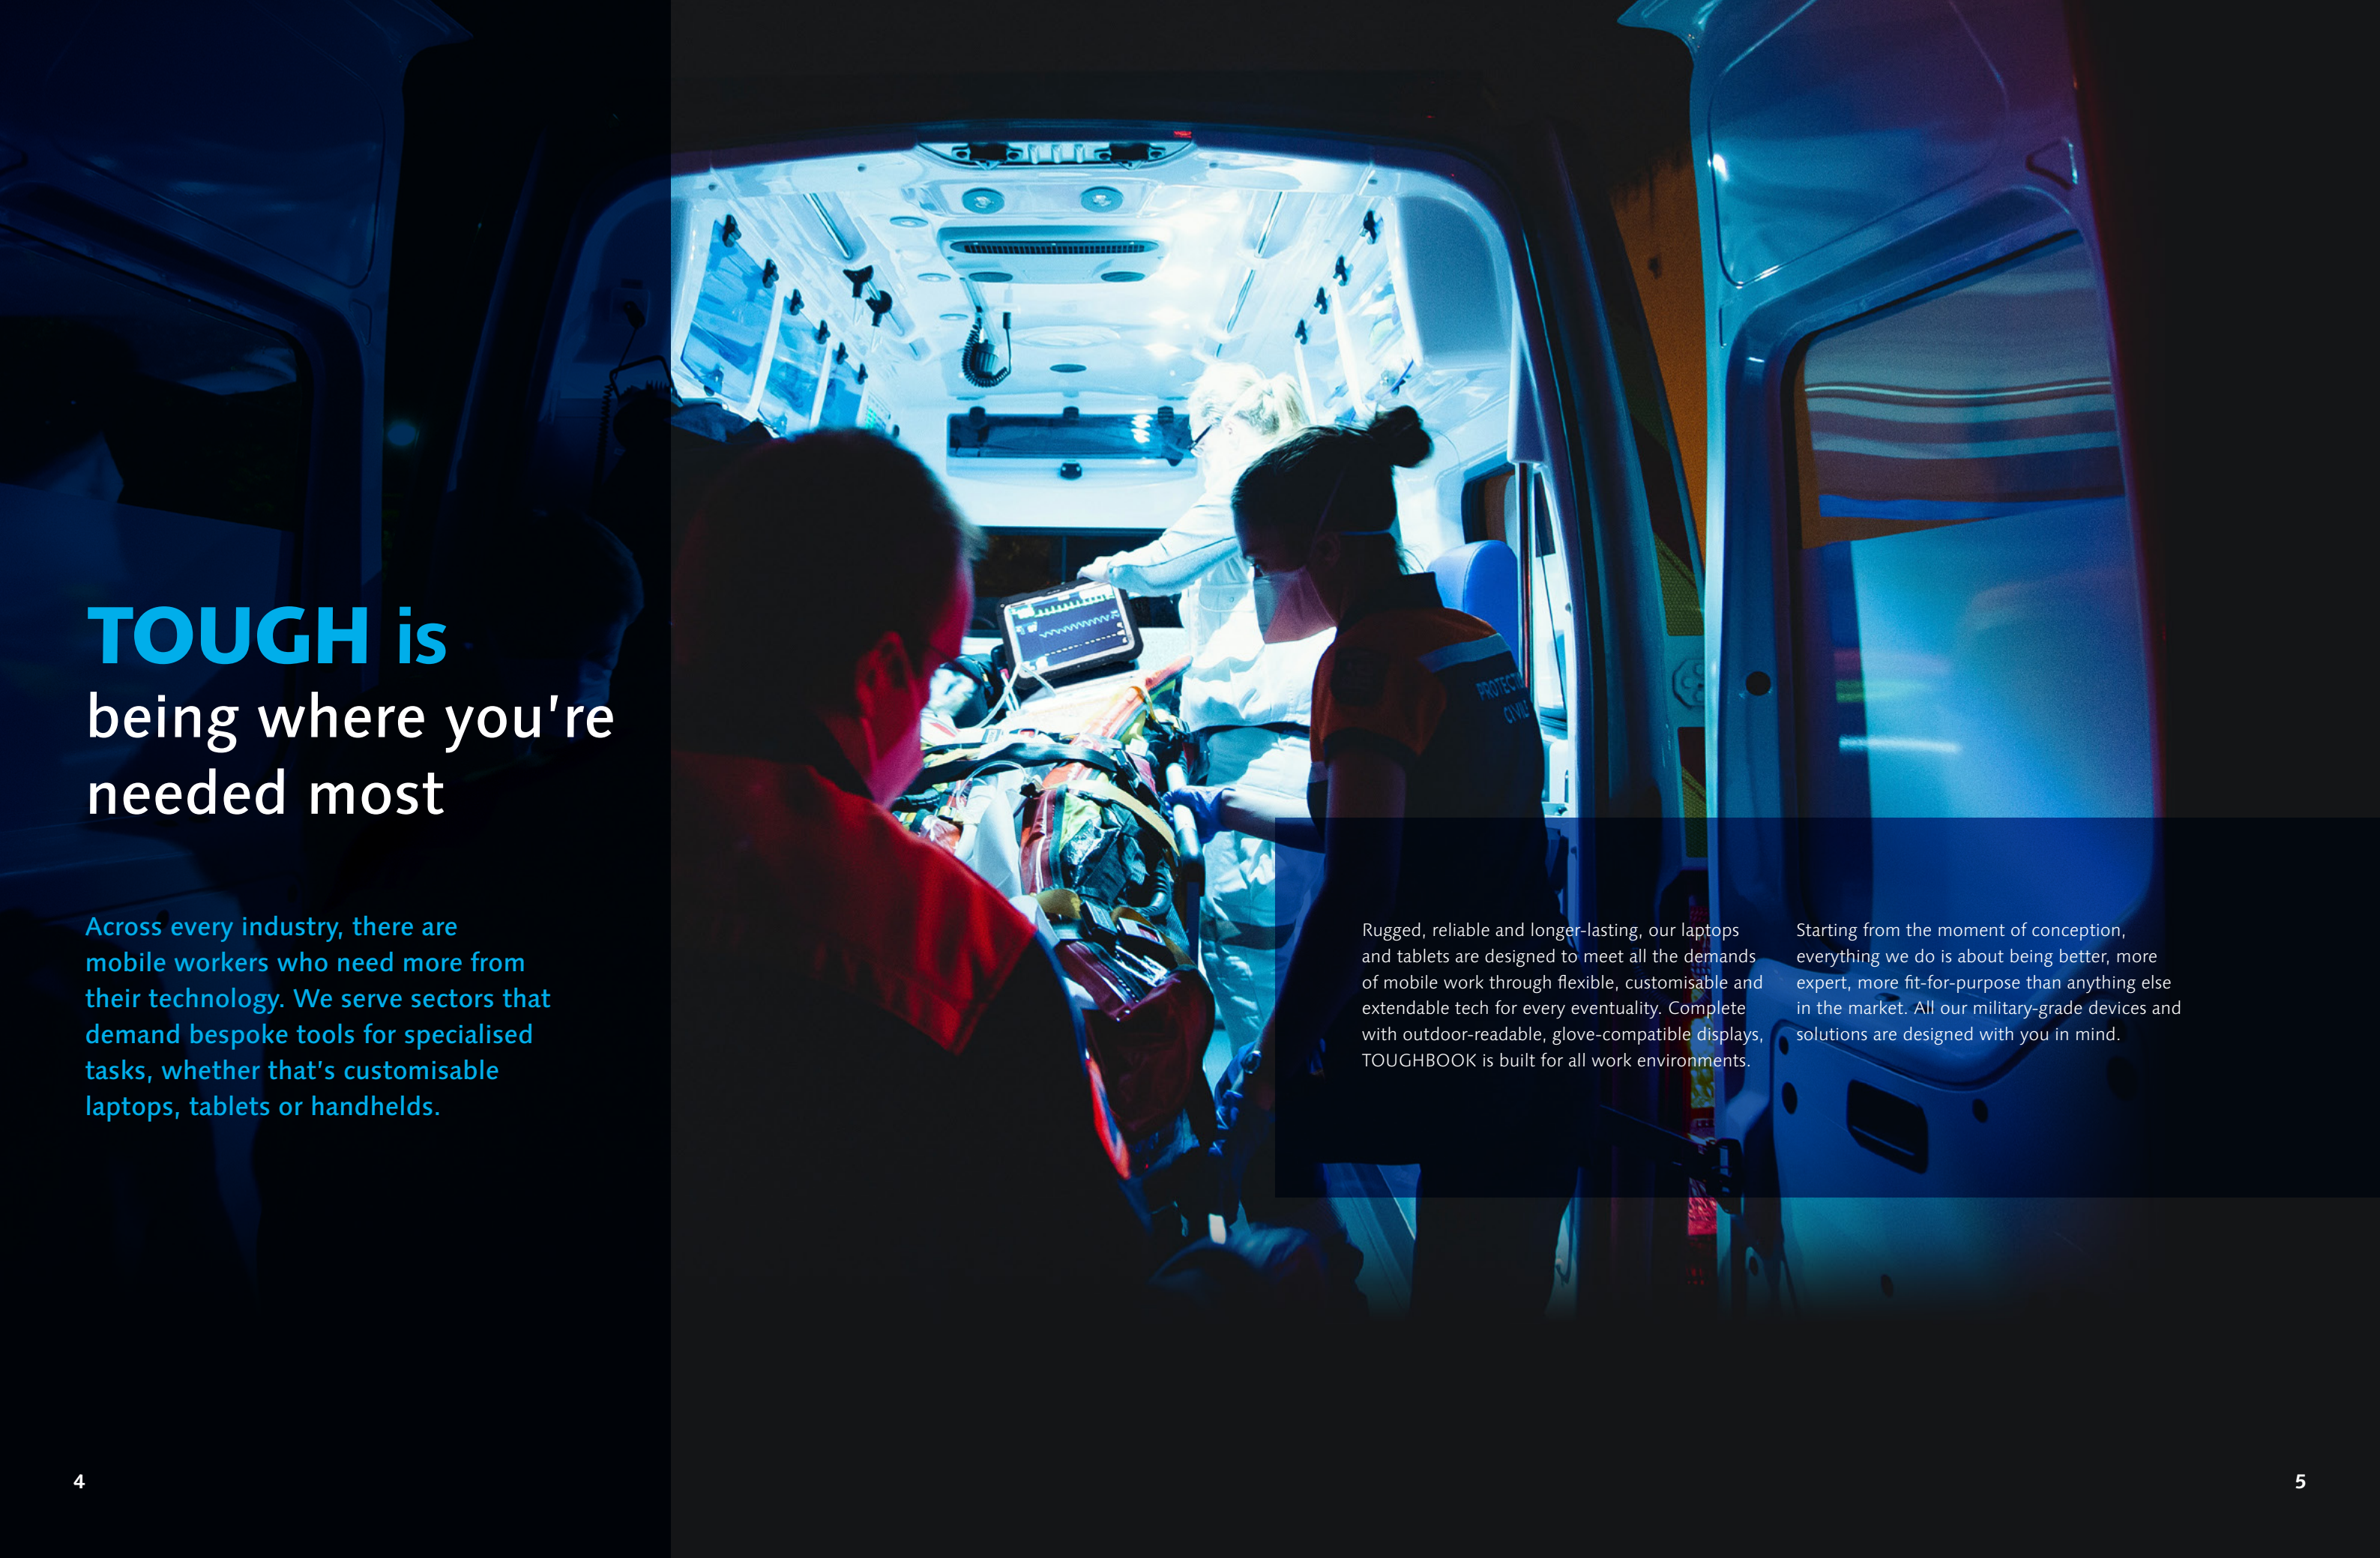

Don't let water, dust, drops or knocks hold you back. Our rugged mobile IT solutions are tested to MIL-STD to ensure you're always ready to work – come rain, snow or shine. TOUGHBOOK was built resilient.

Right by your side

Whether you're on the move, in the field or on-site, TOUGHBOOK keeps you connected. Manage your device remotely, keep your data safe, and put your trust in tougher security.

Flexible and future-proof

TOUGHBOOK devices are lightweight and customisable to help you go the extra mile. Full-shift battery life, hot-swap options and flexible configurations mean you can put the hours in without delays.

TOUGH is being where you're needed most

Across every industry, there are mobile workers who need more from their technology. We serve sectors that demand bespoke tools for specialised tasks, whether that's customisable laptops, tablets or handhelds.

Rugged, reliable and longer-lasting, our laptops and tablets are designed to meet all the demands of mobile work through flexible, customisable and extendable tech for every eventuality. Complete with outdoor-readable, glove-compatible displays, TOUGHBOOK is built for all work environments.

Starting from the moment of conception, everything we do is about being better, more expert, more fit-for-purpose than anything else in the market. All our military-grade devices and solutions are designed with you in mind.

The TOUGHBOOK itself is great and we are yet to have a single hardware failure.

TOUGH is driving innovation in every sector

From defence and emergency services to industrial, manufacturing and field settings TOUGHBOOK keeps mobile work moving forward.

TOUGHBOOK is designed for long shifts, harsh climates and essential work – rugged and reliable, wherever you go.

Field services and off-site activities need the best combination of connectivity, endurance and durability – whether it's machinery maintenance, site inspections or inventory management.

TOUGHBOOK makes quality control, equipment and inventory seamlessly efficient to manage and maintain, while ensuring your supply chain, warehouse, drivers and operations stay connected and secure.

We have been able to go beyond Mobile Device Management systems to transform IT support from reacting to problems, to being proactive and preventing issues before they affect vital communication in the field.

Ultra-secure Windows

Windows 11 Secured-core PCs

Our TOUGHBOOK Windows devices integrate seamlessly with your existing infrastructure.

Enjoy the latest Secured-core technology, including fingerprint readers, face recognition software and optimised BIOS firmware. And get total peace of mind with enhanced device, identity and data protection across hardware, firmware and software.

To guarantee constant connectivity, we leave nothing to chance.

We're confident that the connectivity of our rugged devices is unmatched in the industry. Why? Because we design and test our antennae to the highest possible standards in our own anechoic and radiation measurement facility in Kobe, Japan.

Join team TOUGH

We measure our success by the quality of businesses we call our customers.

Many of the world's most successful, influential and ground-breaking organisations rely on us for their mobile solutions, and have done for many years.

Our customers put their trust in TOUGHBOOK.

Scan the QR code to read our case studies.

Because your challenges are the toughest, our testing is the same.

It's no accident that TOUGHBOOK has the lowest failure rates in the market. We've never underestimated the extreme demands of mobile working. Tested to military standards (MIL-STD) and beyond industry guidelines, our devices are built for your challenges.

When battery life means others give up, TOUGHBOOK users are just getting started.

TOUGHBOOK devices are equipped with the safest batteries, delivering the longest lifetime and run time in the industry. How? We design and produce our own batteries, rather than relying on others for their performance and quality.

The Panasonic device portfolio lets us equip every unit with mobile devices that meet all of our requirements.

TOUGHBOOK Mobility Services

Deploying,
maintaining and
optimising a fleet
of mobile devices
is tough.

But it doesn't
have to be.

That's why TOUGHBOOK
offers a complete suite of
mobility services backed
by a world-leading network
of experts, engineers and
IT partners.

Ultimate mobility made simple

IT Support

Supplement your IT capability with dedicated support and expertise from team TOUGHBOOK.

Supporting Software

Enhance your platform with software solutions designed to offer analytical insight and overcome user challenges.

Hardware Engineering

Tailor your TOUGHBOOK solution to meet specific user requirements and working conditions.

Maintenance & Support

Remove risk, increase visibility and maximise user uptime through proactive maintenance plans.

IT Planning & Consultation

Prepare and optimise your mobile platform for use in the field. Configure the required elements to ensure users simply take their IT out of the box, and on the go.

Deployment & Fulfilment

No more tedious and time-consuming deployments. Roll out or update your technology swiftly and seamlessly, without taking vehicles off the road or engineers out of the field.

Vehicle Technology & Integration

Empower your workforce and drive productivity in remote environments with tailored vehicle technology.

TOUGHBOOK

Mobile-IT As-A-Service

Hassle-free mobile IT designed your way

No two businesses are alike. That's why we offer tailor-made, end-to-end packages designed around the individual needs of your mobile workforce.

“Our field users have a unique set of requirements, which are difficult to support within the standard IT framework put in place for the rest of our business. TOUGHBOOK Mobile-IT As-A-Service provides us with a pain-free solution that we know works, freeing up valuable resources that can help us focus on looking at ways to deliver a better service to our customers.”

Building, Maintenance
& Construction Company

Services

Full support designed specifically for hyper-mobile workers, including maintenance and integration, so your field operations stay productive.

Software

Must-have applications to make your mobile workers go further.

Hardware

For mobile workers: equip your mobile team with the most robust and reliable devices on the market.

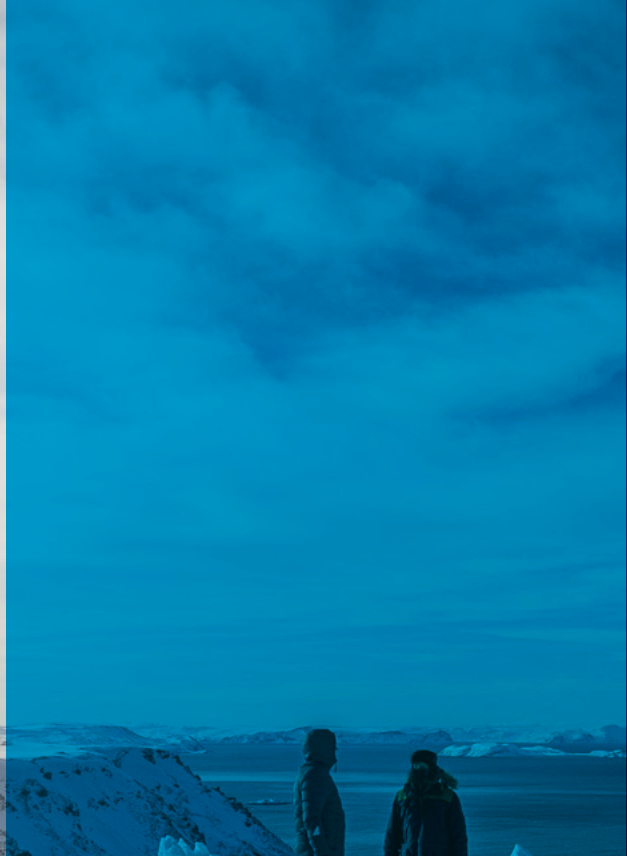

Device Ecosystem & Accessories

All the extras that make mobile work seamless.

*Our simple, customised subscription model allows you to choose the right level of support for your business.**

*60-month contract period, minimum order quantity of 50 units, all prices indicative, subject to credit approval.

TOUGH is big performance with a small footprint

By focusing on the future, TOUGHBOOK gives you more today.

You don't succeed for three decades in the rugged world without constantly focusing on what comes next. Thanks to modular design and configuration flexibility, our devices are inherently upgradeable and future-proofed. And through sustainability initiatives such as Panasonic GREEN IMPACT, we're minimising our impact on tomorrow.

Zero CO₂ by 2030

Panasonic TOUGHBOOK is committed to achieving zero CO₂ emissions by 2030.

Extended life

Lower power consumption, exchangeable batteries and exceptionally long lifecycles mean a reduction in waste disposal.

Enhanced support

Our devices are all supported for five years after the product's anticipated end of life, ensuring long-term security and ongoing updates.

Modular design

Many of our products come with built-in customisation options and can be adapted or redeployed to meet different business needs in the future – further extending the life of the devices and reducing business waste.

Panasonic CONNECT

TOUGHBOOK

We lead the world in rugged technology.
But your voice guides our way.

TOUGHBOOK has a unique relationship with its customers. Their voice has a direct influence on the design decisions we make, helping us evolve the innovative rugged technology that is our hallmark. By listening to them, we've equipped our rugged notebooks and tablets with durable, portable, mobile technology that overcomes the challenges field workers encounter in their professional lives.
