TOUGHBOOK

SUPPORTING SOFTWARE

Secure Network Access for the Anywhere Workforce

In the demanding world of field operations, reliable and resilient network access is crucial. Panasonic **TOUGHBOOK,** renowned for its superior mobile device features, now offers an unparalleled end-to-end secure connectivity solution through **Absolute Secure Access.**

In addition to security and reliability, today's mobile workforce expect access to business applications to be seamless. This can be challenging with people regularly roaming between networks, traveling to rural or remote locations, or working in traffic-dense areas. Disruptions can lead to operational delays, poor user experience and reduced productivity.

The combination of **TOUGHBOOK** devices and **Secure Access** from experts in cyber-resilience, **Absolute Security,** addresses these issues head-on, providing a unique Security Service Edge (SSE) solution to keep your teams connected and secure.

Absolute Secure Access

Uninterrupted connectivity

Zero-Trust network access

Digital experience monitoring

PROSERVICES

Elevating Enterprise Connectivity and Security

Absolute Secure Access offers a comprehensive suite of features designed to enhance the connectivity and security of your Panasonic TOUGHBOOK devices. By integrating this advanced solution, businesses can expect significant improvements in operational efficiency, data protection, and device management.

- **Seamless Remote Access:** Enable your field teams to access critical applications and data securely from anywhere, enhancing their productivity and responsiveness, thanks to undeletable Absolute Network Resilience™ technology.

- **End-to-End Encryption:** Secure all data transmissions between devices and corporate networks, safeguarding against potential breaches and data leaks.

- **Advanced Threat Detection:** Leverage real-time threat intelligence and automated responses to mitigate security risks and ensure compliance with industry standards.

- **Effortless Device Management:** Centralise the management of all your TOUGHBOOK devices with Absolute's intuitive platform, allowing for easy updates, monitoring, and troubleshooting.

- **Optimised Network Performance:** Utilise intelligent routing and prioritisation to ensure your most important applications and services receive the bandwidth they need for optimal performance.
