### ■ Main Features

## 01 | Stress-free Installation Adapts to Various Layouts

Optimized for golf simulators, digital museums, offices, and classrooms, the VMZ7ST Series can project a vibrant 100-inch image from just 1.72 m (5.6 ft), minimizing shadows in compact spaces. Powered focus eliminates adjustment hassle when the projector is out of reach, while 1.2x zoom, V/H lens shift, and an upgraded screen adjustment suite with new GUI enhance layout flexibility. Angle Monitor<sup>1</sup>, data cloning<sup>2</sup> via LAN/USB, and 4K DIGITAL LINK<sup>3</sup> simplify setup, making the series a smart choice for engaging experiences in any environment.

## 02 | Clear Projection in Bright Spaces

The VMZ7ST Series delivers crisp detail and high contrast with up to 7,000 lm<sup>4</sup> brightness for clear, color-rich projection on screens up to 300 inches. A high 5,000,000:1<sup>5</sup> Dynamic Contrast ratio adds depth and realism, while a new Vivid Green Mode boosts green intensity—ideal for golf simulation. Daylight View Basic adjusts image quality to ambient light, ensuring visibility in open, well-lit classrooms and meeting spaces, where WUXGA resolution makes text easy to read at a distance.

## 03 | Eco-Friendly Design

Designed for a sustainable life cycle, the projector body plastic contains about 56 %<sup>6</sup> recycled resins and is shipped in eco-friendly packaging. The laser light source and ECO Filter require no maintenance for 20,000 hours<sup>7</sup>, minimizing resource consumption. A new Image Detection<sup>8</sup> function saves energy when the projector is not in active use, while Auto Power On<sup>9</sup> reduces energy waste by starting projection automatically when a signal is detected. A built-in scheduling feature automates basic operations to your daily routine.
